

Streets Ahead

programme which aims to raise the quality of life and increase opportunities for people living in five areas – Allerton and Lower Grange, East Shipley, Holme Wood, Little Horton and South Keighley.

The programme will improve local services and aims to increase neighbourhood spirit, promote economic development and reduce crime, anti-social behaviour, unemployment and community tension.

Streets Ahead aims to make your neighbourhood a better place to live and to make partnership groups more responsive to your needs. At the same time, we want to improve liveability, reconnect the neighbourhood and promote economic development.

If you would like to assist with the work we do or attend any of our Neighbourhood Forums please contact us – using Textbox 434488 or email us at neighbours@bradford.gov.uk

A signer can be arranged for events and Forums but the service need know in advance so arrangements can be made.
